VASCULAR & ENDOVASCULAR SURGEON

Specialising in the minimally invasive treatment of arterial disease and varicose veins

Dear Colleagues,

I have had the pleasure of working with many of you and your patients over the last 3 years since re-establishing local public, vascular services on the Sunshine Coast. I would like to take this opportunity to advise that I am now also offering services to private patients at The Sunshine Coast University Private Hospital.

My interventional vascular services include complex peripheral arterial endovascular reconstructions, and the minimally invasive treatment of arterial aneurysms. After completing my vascular surgery fellowship in major vascular hospitals in NSW and QLD, I have undertaken further post-fellowship training with world leaders in Germany and Switzerland in cutting edge techniques and emerging technologies. I have also had the privilege of working alongside and learning from the best of Sydney, Brisbane and Melbourne, who were one of the pioneers of endovascular treatment of vascular disease. Australia and New Zealand have developed many novel techniques.

I manage the full spectrum of vascular conditions, and treatments offered include:

- Aortic aneurysms**
 - open, endovascular and percutaneous AAA repairs
 - thoracic aneurysm stent grafting
- Peripheral vascular disease**
 - angioplasty and stenting
 - open end-to-end bypass
- Varicose veins**
 - endovenous ablation
 - microsurgical and ablation-guided laser varicose therapy
 - laser-assisted vein ligation
 - laser-assisted vein ligation
 - laser-assisted vein ligation
 - venous mapping
 - venous vein embolisation
- Cerebral surgery**
 - aneurysm surgery and embolisation

I prefer to utilise minimally invasive endovascular techniques where possible, however I also offer open to hybrid surgery where this is the most appropriate option.

I am a Fellow of the Royal Australasian College of Surgeons, an affiliate member of the Australian College of Endovascular and a member of the Australian and New Zealand Society of Vascular Surgeons. I am also a Senior Lecturer with the University of Queensland, and undertake collaborative research with the University of the Sunshine Coast in endovascular and peripheral arterial disease.

For appointments please phone (07) 5390 4340, or alternatively, please don't hesitate to contact me on (0401) 643 157 if you require urgent advice. I look forward to continuing to work with you and your patients in the future.

Karl Ruggieri

NOVAG

AUSTRALIA

GENUINE OSTRICH

Luxurious leather furniture and so much more.

With its distinctive geometrical quill pattern, exotic ostrich leather is more than beautiful, it's used by some of the world's leading fashion houses. Ostrich leather is tough, scuff-resistant and durable...yet as soft as a feather! Having farmed ostriches in Australia since 1991, no one produces A-grade ostrich leather as fine as Novag. Our range of hand-crafted products and accessories, painstakingly produced by world renowned tanners and the most fastidious finishers, is second to none. These include luxurious fashion statements such as shoes, handbags, wallets, purses, briefcases and belts.

Novag has collaborated with one of Australia's premier furniture manufacturers to present an exciting range of ostrich leather furniture. Customers can select from the range of special pieces can be crafted for the commercial or domestic markets. The designs are only limited by the creativity of architects and interior designers.

Novag, Queensland's largest privately owned ostrich operation, also produces an irresistible range of low-fat gourmet meats and scotch medicinal oils.

For more information, contact Novag on +61 7 3391 6411 or tel. +61 7 3391 6411. Alternatively you can visit our website at www.novag.com.au or email sales@novag.com.au 5/79 Logan Road Wacol/Longlands Brisbane QLD 4110 PO Box 1417 Coopers Creek QLD 4101 Australia

cooltone
Excellence in glass film coatings for your Home or Office.

BRISBANE'S RESIDENTIAL & COMMERCIAL GLASS COATING PROFESSIONALS

Since 1981, Cooltone has led the local industry in advances to glass coating solutions, not only in our core business of residential treatments, but with major corporate installations too. This wide range of experience makes us uniquely able to offer you levels of expertise and innovative solutions not available from ordinary window tinting companies.

Keep the sun's worst effects outside.
Like it or not, our summer sun is getting hotter. And proposed climate change measures can only mean power charges heading up even further than they already are. But with Cooltone Solar Window Film treatments, you can keep your home cooler and reduce energy consumption.

SOLAR WINDOW FILMS
Bringing comfort to homes & buildings.
Fast, easy & economical solutions to reduce heat and glare, and to protect your furniture and fabrics from fading. Enhances appearance and gives the modern look of tinted glass as well as improving Energy Efficiency.

SAFETY & SECURITY FILMS
Bringing safety to glass.
Film coating solutions to prevent glass shattering through accidental impact, fire & storms, or even break-ins. Protect your family and your possessions.

DECORATIVE GLASS FILMS
Bringing stylish design options to architecture.
Precision-cut, Casque look films that offer a myriad of options to transform kitchens, bathrooms, side walls, balconies and other glass surfaces adding privacy to your Home or Office.

SIGNAGE
Bringing communication to life.
Cooltone has a growing reputation in the film-applied signage industry for delivering creative and effective solutions for internal and external communications requirements.

Reiber Fixed Ring System – The Reliable Joint

Installers don't have time to waste searching for missing and displaced pipe sealing rings. With the Reiber Fixed Ring System, seals are locked into pipe socket... Permanently!

Locking the ring tightly into the socket during pipe manufacture also prevents grit and sand from working its way behind the seal... Eliminates a common cause of leaks in pipes that are frequently pressure cycled. A full lifecycle analysis of Iplex Reiber Ring pipe in PVC-M and PVC-U provides Green Star Compliance.

Reiber Ring – The trouble-free jointing system for PVC pressure pipes.

System Benefits

- Increased Reliability**
 - Locked-in Reiber Ring system – no displacement during installation.
 - Rings integrated, part of the pipe socket – cannot be lost during transport and handling.
- On-Time Performance**
 - Ease of jointing – Low jointing force and faster installation.
 - Timely testing and commissioning.
- Long-Term Performance**
 - Self-sealing, regardless of internal pressure.
 - Better vacuum performance – high resistance to infiltration.

BOHEMIA
WEST END

NEW YEAR RESOLUTION

If you are seeking adventure in 2018 and are considering a change of address to excite your senses, the move to a vibrant West End lifestyle may well be the opportunity you are looking for.

Bohemia West End is an outstanding apartment building, designed as an architectural reflection of the timber cottages and heritage warehouses that once defined this eclectic suburb and built to The Turrissi Standard by local family-owned Turrissi Properties.

INSPECT OUR FURNISHED APARTMENT

The scaffolding is down and fitout of apartments is well advanced, for sneak preview during your holiday downtime.

This is your personal invitation to inspect a completed, fully-furnished apartment up close and personal. A chance to bring family or a friend, stay a while and experience the quality of construction, attention to detail and premium finishes that set a Turrissi residence apart and elevate the liveability and rentability of your new home or property investment.

HOME | CONDITIONS TREATED | CONTACT US

Dr Simon J Quinn
BPhy(Hons), MBBS(Hons), FRACS(Vasc)

Dr Simon Quinn is a Brisbane based Vascular and Endovascular Surgeon. He has trained extensively throughout Australia in all aspects of vascular surgery including **open** and **minimally invasive endovascular** techniques.

His practice encompasses the assessment and treatment of the full spectrum of vascular conditions, incorporating both **arterial** and **venous** disease.

Dr Quinn grew up in Brisbane and attended the University of Queensland. After completing a degree in Physiotherapy he undertook a postgraduate Bachelor of Medicine and Bachelor of Surgery, graduating with Honours. He completed his surgical training throughout Queensland and Victoria and was awarded Fellowship of the Royal Australasian College of Surgeons in Vascular Surgery.

Dr Quinn's practice is based at the Wesley Hospital in Auchenflower. Consultations take place at the Wesley Medical Centre, Northsides Day Hospital, The Holy Spirit Northside Private Hospital and at St Stephen's Private Hospital in Hervey Bay. Operations are performed the Wesley Hospital, The Holy Spirit Northside Private Hospital and Greenslopes Private Hospital.

HIGHGROVE

BRIDGEMAN DOWNS

An exclusive new estate in Bridgeman Downs

...

24 PREMIUM, LEVEL HOMESITES

HIGHGROVE is an exclusive new land release in the heart of Brisbane's sought-after northern suburbs, with convenience to match the pedigree of a BRIDGEMAN DOWNS address.

Just minutes from Carseldine Central Shopping Centre, Aspley Hypermarket, Westfield Chermide and a fine selection of State and private colleges, HIGHGROVE is your chance to secure a very special lifestyle in this highly regarded suburb.

HIGHGROVE spans Ridley Road over 2 Stages and offers a choice of 24 freehold homesites ranging in size from 400m² up to an impressive 693m².

The choice is all yours... live highside in the cul-de-sac privacy of Noble or Majestic Streets amongst established contemporary homes, capture easterly views and breezes in a world of your own OR secure a family-sized lot (with generous frontage) on Ridley Road or Serendipita Street and build a stylish lifestyle close to every convenience of Brisbane's respected inner north.
